

High-Performance Homes Program (HPH)

The Entergy Texas High-Performance Homes Program is a residential market transformation program that offers incentives to homebuilders to advance the adoption of new, energy-efficient homes in Entergy Texas' territory.

Participating homes can earn incentives for installing high efficiency technology in HVAC systems and insulation as well as add-on incentives for certified ENERGY STAR® heat pump water heaters, certified ENERGY STAR smart thermostats, EPA Water Sense

products, certified ENERGY STAR refrigerators and smart home products.

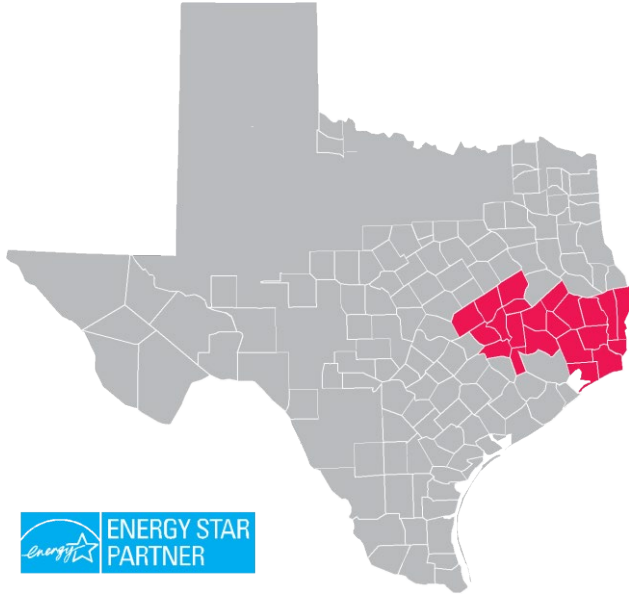

Typical high-performance homes include:

- Efficiency measures that reduce kWh
- High efficiency HVAC systems
- High efficiency insulation

2026 High-Performance Homes incentives

Tier	kWh min	kWh max	Incentive
Resnet	>=350	<1,000,000	\$225
ENERGY STAR	>=350	<800	\$225
