LARGE VOLUME RENEWABLE OPTION RIDER

I. AVAILABILITY

This Large Volume Renewable Option Rider ("Rider LVRO") is a voluntary Rider available to qualifying non-residential customers of Entergy Texas, Inc. ("ETI" or the "Company") taking service under rate schedules General Service ("GS"), Large General Service ("LGS"), and Large Industrial Power Service ("LIPS"). Eligible customers must take metered service and be in good standing with the Company. Prior to taking service under this tariff, customers must designate a quantity of energy usage to be matched with renewable energy credits ("RECs") ("LVRO Energy") that is at least 500,000 kilowatt-hours ("kWh") per month but shall not exceed the customer's average monthly energy usage for the previous year.

II. APPLICABILITY

Rider LVRO is for an optional service to customers that voluntarily elect to match a designated amount (of at least 500,000 kWh) of their monthly energy usage ("LVRO Energy") with RECs. A REC represents the full suite of attributes of one megawatt-hour ("MWh") of electricity generated and delivered to the electricity grid from a renewable energy source. Service under this Rider provides for the purchase of RECs by ETI and related program costs. The Company will retire all RECs purchased under this Rider on behalf of participating customers. Service under Rider LVRO is in addition to service under other rate schedules that apply to the customer. Service under LVRO does not modify any other applicable rate schedule or provisions for service.

III. TERMS OF SERVICE

A customer who wishes to enroll in Rider LVRO must enter an Agreement for Large Volume Renewable Option Rider ("Agreement") with the Company, in the form as set forth in Attachment A.

A customer may not enroll if it is a party to a deferred payment agreement, has received two or more final disconnect notices, or has been disconnected for non-payment within the last twelve (12) months. ETI may terminate service under this Rider to a participating customer who becomes delinquent in any amount owed to ETI with 60-day notice of termination.

The initial term of Agreement under Rider LVRO shall be for a one-year period. This term shall automatically be extended for successive periods of one year each until terminated by written notice given by either ETI or the participating customer to the other not less than sixty (60) days prior to the requested date of termination.

If a participating customer terminates service and moves from the Company's service territory, the customer's service under Rider LVRO will be cancelled immediately and without additional notice. If a participating customer moves to a new location within ETI's

(Continued on reverse side)

service area and continues to be eligible for service under Rider LVRO, the customer's service under Rider LVRO will be transferred to such new location unless the customer withdraws from Rider LVRO.

If a participating customer seeks to terminate electric service or withdraw from Rider LVRO prior to the end of the initial one-year term or any successive one-year extensions, the Company reserves the right to assess the customer a fee equal to the cost of RECs obtained by the Company on behalf of the customer for the remainder of the one-year term of the Agreement.

Customers who withdraw from Rider LVRO will not be eligible for service under this tariff until the seventh (7th) billing month following such withdrawal.

The Company reserves the right to deny or suspend service under Rider LVRO, or limit the number of RECs provided to each participating customer, until such time that the Company is able to ensure that a sufficient quantity of RECs is available to meet the customer's desired participation level.

The amount of LVRO Energy may be changed no more than one time in a six-month period. The new LVRO Energy election will be effective two (2) billing cycles after the change is requested.

IV. MONTHLY CHARGE

The Rider LVRO monthly charge will be equal to:

LVRO Energy x Monthly Rate

Where:

1. LVRO Energy = The fixed, monthly amount of kWh contracted by the participating customer; and
2. Monthly Rate = \$0.002707/kWh.

On an annual basis, no later than October 1, ETI will file with the Commission the updated Monthly Rate to be effective with the first billing cycle of the following January billing month. The Monthly Rate is calculated to be the fixed REC price (calculated as the most recent available 12-month average value using the S&P Global Renewable Energy Credit Index for Texas RECs) plus applicable Green-e® certification costs. The updated Monthly Rate will also include a true-up that compares the actual cost of RECs purchased by ETI on behalf of participating customers in Rider LVRO to the revenues collected based on the fixed REC price used to develop the rates charged under Rider LVRO for the most recent preceding twelve (12) months. The resulting over- or under-collection will be incorporated into the subsequent updated Monthly Rate.
